

Delegation

The delegation module is unique in a way that it can be used in terms of travel limitations, as exist during the pandemic. An exhibitor wishes to joint an upcoming event, but there is a problem: he/she cannot reach the venue. Then the potential exhibitor delegates his/her rights and questions to the OKAY Expo platform, and the service section of the platform (the respective module is under development) selects a stand fitting contractor and proposes managers to engage for on-site attendance during the event.

Procedure:

- The exhibitor selects an event and submits a form to the platform to declare his/her intention. Every matter and issue thereafter shall be dealt with and solved by the platform.
